The Farming Ladder
Wood Pasture? Mixed use three dimensional farming, not a new idea.
Large scale “modern” farming
Where’s the soil gone?
Where is the soil going?
This is what happens when the soil can’t absorb water properly.
Modern herbal ley, putting life, carbon and water retention back in the soil.
Rob Havard’s fields at NT Croome Park
Christine Page, Smiling Tree Farm. Agroforestry and rotational grazing in action.

KEY
- Circular Farm Walk
- Farm Trail
- Wood Cabins
Species diversity in the meadows, good for the soil and good for the livestock and wildlife.
Weston Price: Advocated:
1) consumption of animal fats is not dangerous to human health
2) overall nutritional quality of food and human health is reduced in mainstream agricultural methods that emphasize the use of synthetic fertilizers and pesticides as well as factory farming and significant processing of whole foods
