

Meadow 1

But I don't want to be dug up. What about all my lovely flowers, grasses and animals?

Land girl 1.

We're going to plough you up and plant oats.

Scientist

This is no good it's full of weeds

Surveyor

We're going to build a lovely new road through here.

Meadow 3

But I don't want a road. What about all my lovely flowers and grasses not to mention animals.

Surveyor

You've been chosen for a new housing estate, we're going to call it 'The Meadows'

Meadow 4

But I don't want to be a housing estate!

What about all my flowers, grasses and animals?

Children

What's the matter? Why are you so scared?

Meadow 5

But, I'm just a scruffy little meadow, even my soil isn't very good.

Land girls 2

There's a war on and we all have to make sacrifices. Ships can't get through with the food. We've got to grow it all ourselves.

Scientist

This is no good. It's full of weeds. This fertiliser will give you a field full of lovely green grass to feed more cows, and more cows means more milk, more meat and more money.

Meadow Officer

Rubbish who have you been listening to? Your soil is perfect for all these wonderful flowers and different grasses. If you improved your soil with fertiliser they couldn't grow. Now listen to me! You are special and people are beginning to realise just how important you are and are trying to protect you.
