

Farming in the High Weald

Draw a picture of the **DROVERS** with their pigs:

What did the farmers feed their pigs on?
Can you explain why there are lots of *sunken lanes* in the High Weald?

What food comes from a farm? Write or draw as many things that you can think of!

As well as producing food, farmers help to look after the countryside - circle all the things you think that they help.

Woods

Old buildings

Ponds

Meadows

Why do you think that farmers in the High Weald are important?
